Re: Marcos Centurion - Application No. 05-184 (CC12)
11605 SW 95 Street

Dear Ms. Fojo:

Pursuant to the state-mandated and School Board approved Interlocal Agreement, local government, the development community and the School Board are to collaborate on the options to address the impact of proposed residential development on public schools where the proposed development would result in an increase in the schools' FISH % utilization (permanent and relocatable), in excess of 115%. This figure is to be considered only as a review threshold and shall not be construed to obligate the governing agency to deny a development.

Attached please find the School District's (District) review analysis of potential impact generated by the above referenced application. Please note all of the impacted school facilities meet the referenced review threshold. The proposed residential development will impact William Lehman Elementary School, Arvida Middle School and Miami Killian Senior High School currently operating at 125%, 153% and 154% of FISH % utilization (please see enclosed analysis).

Additionally, at its April 13, 2005 meeting, the Board approved School District criteria that would allow District staff to make recommendations on residential zoning applications that impact public schools beyond the 115% of FISH capacity threshold (Review Criteria). Pursuant to the Interlocal and the recently approved Review Criteria, the District met with the applicant on August 31, 2005, to discuss the impact of the proposed development on public schools.

The District is grateful that the applicant took the time to meet with the School District to discuss possible mitigation options outlined in the Review Criteria that may accommodate new students generated by the proposed application. As such, the applicant has voluntarily proffered a covenant to the School Board in order to provide a monetary donation, over and above impact fees. The payment of the required educational impact fees for this proposed development and the proffered monetary donation will provide the full capital cost of student stations for the additional students generated by the proposed development. Please be advised that such a proffer by the applicant is subject to School Board approval at an upcoming meeting.

Please note the attached analysis depicts the relief schools planned in the area, which includes the recently approved Facilities Five Year Work Program.

Also, attached is a list of approved Charter School Facilities, which may provide relief on a countywide basis.

Additionally, pursuant to Miami-Dade County's Educational Facilities Impact Fee Ordinance the proposed development, if approved, will be required to pay educational facilities impact fees (impact fees) based on the following formula:

$$\text{New residential unit square footage} \times .90 \text{ (Square Footage Fee)} + \$600.00 \text{ (Base Fee)} + 2\% \text{ administrative fee} = \text{Educational Facilities Impact fee}$$

As an example, assuming the proposed unit is 2,000 square feet, the 3-unit development is estimated to generate approximately \$7,200 (\$2,400 per unit, excluding the 2% administration fee) in impact fees. This figure may vary since the impact fees assessed are based on the actual square footage of each dwelling unit.

As always, thank you for your consideration and continued partnership in our mutual goal to enhance the quality of life for the residents of our community.

Sincerely,

Patricia Good
