**JULMAR 147 INVESTMENTS, LLC**  
**Public Hearing Application 12-085**

**Proffered Conditions for Approval**

The Owner hereby withdraws the requested variance of outdoor recreational space.

The Owner shall submit a revised site plan, Childcare Checklist, and proffered covenants to:

1. Expand the School property to include Lot 1 of the Residential property.
2. Limit the maximum number of students to 188.
3. Plant a total of twenty (2) green buttonwood, silver buttonwood or pigeon plum trees every fifteen (15) feet on center to provide a landscape buffer in addition to the CBS wall and hedge located at the south property line of the School parcel.
4. Provide all prospective and current parents with notice of the prescribed burnings conducted every three (3) to seven (7) years at Tree Island Park and Preserve in the School's Operational Plan.

## **OBJECTION TO DAYCARE INSIDE NEIGHBORHOOD**

### **HEARING # 12- 085**

- SAFETY OF CHILDREN, GUARDIANS OR PARENTS, RESIDENTS IN NEIGHBORHOOD
- NOT IN THE MASTER PLAN FOR THE RESIDENTIAL AREA
- HEAVY BOTTLENECKING TRAFFIC FOR NEIGHBORHOOD AND 147<sup>TH</sup> AVENUE WHILE TURNING INTO DAYCARE
- ANOTHER SCHOOL FOR 3000 STUDENTS IS IN PLAN WITHIN JUST A FEW BLOCKS
- PLAZAS IN ALREADY BUSINESS ZONED AREA WILL ACCOMMODATE PARENTS, STAFF, AND TRAFFIC BETTER
- WHAT EFFECT WILL THIS HAVE ON A RESIDENTIAL COMMUNITY PROPERTY VALUE
- AESTHETICS TAKEN FROM A VERY NICE NEIGHBORHOOD
- PARKING FOR STAFF OR PARENTS IS MINIMAL. THEY WILL PARK ON COMMON AREAS AND NEIGHBORING LANDSCAPES

Dear Committee Council 10,

We are all homeowners and parents in the area of 147<sup>th</sup> Avenue. We are writing to express our concerns with permitting a Private School and a Daycare in a residential area that is increasingly high in traffic as to be requested on hearing 12- 085. We fear for not only the safety of the children but also the loss of a sense of community, the negative impact this plan will have on property values, and the undeniably heavy traffic that is to come of it. We ask you to please reconsider the location request for this plan to a safer, business oriented, and manageable traffic flow area.

Parents will not feel safe dropping off and picking up their children in a school that has requested so many code exceptions for its structure. Adding to this already concerning fact is the idea of it being built in a residential area, which contains uncontrollable outside forces such as dogs that may escape from a yard into the schools property. Also, many of the homes have pools directly within the vicinity of the proposed property.

We all know that 147<sup>th</sup> Avenue is now being expanded into a four-lane highway to accommodate a beautiful preservation park named "Tree Island Park", which is currently undergoing construction. This will be a great addition to the area for children to play and the homeowners to visit while giving a positive sense of community. A daycare would foil our appreciation for the family community as the flow of traffic from 147<sup>th</sup> Avenue will now be coming directly into our community instead of staying on the highway or west of it as it will without the daycare being implemented.

As homeowners, we purchased our homes in the area because it is quiet, close to shopping and is surrounded by well-rated schools. The real estate market, although not at its best, is still holding up in our area. We would like to do all that is possible to maintain it. Having a daycare and school in the neighborhood is not appealing to us, let alone to future homebuyers. There are dozens of spaces in nearby plazas, which could accommodate the traffic and parking. Also, there are 8 existing schools, not including High School, Middle Schools, or Elementary within a 2-mile radius of the proposed property.

Finally, the traffic, which will be coming into the residential area, will cause frustration among the parents of the potential students as well as the owners of the neighboring homes. The street is not meant to accommodate more than the traffic flow of homeowners and should not be disturbed. With the property being so limited in space, there is only so much that they can devote to parking, this will cause parents to park in common areas and perhaps even in the homes of

Hearing 12- 085  
November 19, 2012

residences which will only lead to more traffic congestion in the already booming streets of 147<sup>th</sup> Avenue.

We know that your decision is always in the best interest of the people. We have continued with a list of the schools in the area and the names of just some that share the concern. We hope that this letter can be used as a voice for all of those who have signed and for the homeowners who are not able to attend the meeting. Thank you in advance for your time and we look forward to your support.

Respectfully and sincerely,

Homeowners

# PETITION AGAINST DAYCARE (PETICIÓN CONTRA GUARDERIA INFANTIL)

HEARING NUMBER: 12-085  
 APPLICANT NAME: JULMAR 147 INVESTMENT, LLC  
 THE APPLICANT IS REQUESTING A DISTRICT BOUNDARY CHANGE FROM AU (AGRICULTURAL) TO RU-1MA (MODIFIED SINGLE-FAMILY RESIDENTIAL 8,000 SQ. FT.), A SPECIAL EXCEPTION TO PERMIT A PRIVATE SCHOOL, AND AN UNUSAL USE TO PERMIT A DAYCARE.  
 ADDITIONALLY, THE APPLICANT IS REQUESTING NON-USE VARIANCES TO PERMIT THE SCHOOL TO BE SETBACK LESS THAN REQUIRED FROM PROPERTY LINE(S), AND TO PERMIT PARKING AND DRIVES WITHIN 25' OF AN OFFICIAL RIGHT-OF-WAY WHERE IT IS NOT PERMITTED, ON THIS SITE.

Dear Mr. Osterholt:

This shall constitute our letter of intent on behalf of Ferro Development, LLC (the "Applicant"), in support of its request for a Special Exception to permit a public charter school facility including, grades pre-kindergarten through the 12<sup>th</sup> grade (the "Application"). The proposed charter school will serve up to 3000 students. The 8.9264 acre Property is zoned BU-1A (Business District Limited). Currently, a charter school facility is a permitted use after public hearing in the BU - 1A zoning district.

The 8.9264 acre Property is designated Business and Office on the Land Use Plan (LUP) map of the Comprehensive Development Master Plan (CDMP). This land use category is generally characterized by commercial and retail activity. Schools are permitted in any land use category provided they are approved at a public hearing. Further, the proposed Charter School is consistent with the CDMP and will provide a much needed service to the surrounding community.

In accordance with the plans accompanying this Application, the charter school will consist of 81,600 sq. ft of class room area, 117,150 sq. ft. of non-class room area (offices, bathrooms, kitchens etc.) and 97,000 sq. ft. of outdoor recreation area. The plans fully comply with all applicable land development regulations.

Jack Osterholt  
Miami- Dade County  
October 16, 2012  
Page 2

The proposed facility adheres to the setbacks for buildings of public assemblage and, therefore, is adequately spaced from adjoining properties under different ownership and from the rights-of-way. The property's frontage on S.W. 8th Street and S.W. 152<sup>nd</sup> Avenue provides good access to the site for the intended use. Vehicular ingress and egress to the site has been carefully designed. The parking lot will contain 274 parking spaces. The school drop-off area provides a surplus of vehicular stacking area for 67 vehicles that will primarily serve parents as they drop-off and pick-up their children.

The playground area is adequately spaced from the rights-of-way and will be enclosed with a fence and self-locking gates. Use of the playground area will occur in shifts to ensure that adequate outdoor space is afforded to the number of children allowed outdoors. Perimeter landscaping will be introduced to buffer the adjoining properties under different ownership.

This proposal is compatible with the surrounding area and consistent with the CDMP. We ask that you enthusiastically recommend approval of our request for a Special Exception. If you have any questions or comments, please do not hesitate to contact our office. We look forward to working with your department.

Very truly yours,

Miguel A. Diaz de la Portilla  
For the Firm

Miami, Florida 33128

Re: Zoning Application for Julmar 147 Investment, LLC,  
LLC; Case No.: Z-12-085

Dear Mr. Silva:

This letter is to notify you that the undersigned represents Ernesto Frye and the West Dade Home Owners Coalition, Inc. and other neighbors of the above referenced applicant for county zoning approvals.

At the continuation of the Community Zoning Appeals Board 11 public hearing on this issue on February 19, 2013, my clients will provide expert testimony on this matter from Mark Alvarez a professional planner. Mr. Alvarez will testify that the approval of the referenced application will have a negative impact on the adjacent neighborhood.

That testimony will relate to the planning principles underscoring the referenced zoning application and its relationship with the requirements the Miami-Dade County Comprehensive Master Development Plan ("CDMP"), Miami-Dade County zoning ordinance and other county and state regulations. The testimony will examine the planning issues regarding the application presented by Julmar 147 Investment, LLC ("Julmar") for the district boundary change, special exception, unusual use and two non-use variances to permit a private school as part of this application. The basis of this testimony is the witness'

expertise as a professional planner. Mr. Alvarez's testimony will address:

1. Inconsistency of the application with the CDMP regarding neighborhood compatibility set forth in the CDMP.
2. Incompatibility of the of the proposed school with its surrounding land uses, with respect to goals, objectives, policies, and other criteria as set forth in the CDMP.
3. Impacts of the proposed development, proposed mitigation measures, and their consistency with the CDMP and land development regulations.
4. The traffic studies relating to the application and this property presented to the Department of Regulatory and Economic Resources, and the impacts of traffic on the surrounding single-family neighborhood.
5. Existing school sites and facilities within this area of Miami-Dade County and the prevalent land use relationships of these schools with surrounding single-family neighborhoods.
6. The consistency of the application with best practices for the development of urban educational facilities in Florida and throughout the United States.
7. The evaluation, findings and recommendation regarding the application presented in the staff report.
8. In addition, based on presentations provided by the applicant and any witnesses on its behalf, Mr. Alvarez may provide additional presentation points or comments regarding the planning issues discussed.

Mr. Alvarez, in his testimony before the Community Zoning Appeals Board, will rely on professional planning books and treatises, and documents on file with Miami-Dade County and other state and local governmental entities, as well as material included in the public record relating to the property that is the subject of this zoning application (Case No.: Z-12-085) including all documents on file at the Department of Regulatory, Economic Resources of Miami-Dade

County as well as records on file at the Miami-Dade County Property Appraiser's Office and any documents relating to school facilities within the area of this proposed school on file with Miami Dade County Public Schools.

Please note that Mr. Alvarez may rely on and submit into evidence any document that "has been filed with the Director at least ten (10) days prior to the public hearing." This includes all documents on file with the Department of Regulatory and Economic Resources as of the date of this letter.

Mr. Alvarez also may rely on and submit into evidence additional documents filed with the county after the date of this letter and prior to the public hearing on the application.

Attached please find a copy of Mr. Alvarez's resume.

Sincerely,

W. Tucker Gibbs

## EXPERIENCE

Mr. Alvarez provides land use planning, transportation planning, and development rights analysis services to public entities and private interests, including: comprehensive plan amendments; zoning analysis and amendments; developing area plans for redevelopment and neighborhood preservation; assisting citizens groups to liaison with governments; and analyzing development compliance. In the transportation area of practice, he performs work to develop transportation improvements that leverage redevelopment, and to developing transit system improvements for large and small systems. He has over 20 years of experience in: stakeholder engagement, baseline assessment, issue prioritization, development of performance indicators, impact analysis, cost-benefit analysis, and development of sustainable strategies.

### Principal

#### Alvarez Planning

Mr. Alvarez provides land use planning, transportation planning, and development rights analysis services. Major projects include: *City of North Miami Beach Land Development Code amendments, Pinecrest US-1 Corridor Master Plan; City of North Miami Beach Comprehensive Plan; City of North Miami Land Use Code Amendments; West Perrine Community Redevelopment Area (CRA) Finding of Necessity; Goulds / Cutler Bay CRA Finding of Necessity; Florida Gold Coast Electric Vehicle and Charging Infrastructure Analysis Village of Pinecrest Transit Circulator Study; South Dade Busway Transit Park-and-Ride and Feeder Plan; Pinecrest South Dixie Highway Intersection Study.*

Dec. 2006 - present

Miami, Florida

### Senior Research Associate

**Center for Urban Transportation Research, University of South Florida Tampa, Florida**  
As a University of South Florida Research faculty member, Mr. Alvarez was the Principal Investigator for four large transit / land use planning studies with a total value of over \$1.6-million. He also conducted quantitative management and policy analysis efforts for governmental clients.

Jun. 2003 - Dec. 2006

### Capital Improvement Administrator

#### City of Miami Beach

Mr. Alvarez coordinated the programming of a \$400-million capital improvement program (CIP). Reporting to the Assistant City Manager and Chief Financial Officer, he coordinated with the City's departments of finance, budgeting, planning, public works, parking, buildings, and media relations to prioritize the City's streetscape, utility, parks, and public facility projects.

Nov. 1999 - Jun. 2003

Miami Beach, Florida

### Principal

#### Meridian Consulting, Inc.

Mr. Alvarez integrated provided specialized urban planning services in transportation, transit and parking improvements to support economic development strategies in urban downtown settings, and comprehensive plan amendments. He worked with planning teams on major urban planning efforts in Northwest, Midwest, and in Florida.

Apr. 1998 - Jun. 2003

Miami, Florida

### Senior Planner

#### The Corradino Group

Mr. Alvarez led transportation and community planning projects, managed the company's planning staff, and developed proposals for new work. He was the project manager for many major public sector projects that included: transit development, transportation corridors, traffic calming, community redevelopment area designations and, land use policy plans.

Nov. 1993 - Apr. 1998

Miami, Florida

### Regional Planner

#### South Florida Regional Planning Council

Mr. Alvarez was responsible for land use and transportation-related planning assignments, including: evaluating local comprehensive plan amendments; updating the Transportation Element of the Strategic Regional Policy Plan, and he was the Project Manager for the US Department of Energy and Florida Department of Community Affairs' Clean Cities Program.

Aug. 1992 - Nov. 1993

Hollywood, Florida

**To:** Melissa Tapanes  
**Cc:** Velazquez, Christine (RER)  
**Subject:** RE: Julmar Public Hearing Application No. 12-085

Ms. Tapanes:

Thank you for your summary. I went back to the DERM memo, and it appears there was an error. I would like to clarify that the Tree Island Park and Preserve is not designated NFC, but a portion of the site is managed by the EEL Program. As resources allow, the EEL Program will maintain the ecological community through the use of prescribed fire. Even though it is not NFC, the points you made related to possible prescribed fires are the same.

Please call me at any time with questions.

Thank you,  
Cynthia

**To:** Velazquez, Christine (RER)  
**Cc:** Guerra, Cynthia (RER)  
**Subject:** Julmar Public Hearing Application No. 12-085

Dear Christine,

I had the opportunity to discuss the DERM comments related to the NFC abutting the subject property with Cynthia Guerra this afternoon. Ms. Guerra answered all my questions and a meeting will not be necessary at this time. I informed Ms. Guerra that Community Council 10 had requested the presence of a DERM representative to respond to questions in connection with the NFC comments in the DERM recommendation at the hearing now scheduled for February 19, 2012 at 6:30 pm.

Below is a summary of Ms. Guerra's statements that I believe as pertinent to the hearing:

- The natural habitat and life cycle of NFCs are dependent on fires.
- NFCs undergo prescribed fires every 3 to 7 years to avoid catastrophic wildfires.
- Surrounding property owners are provided an annual notice prior to a prescribed fire.
- The decision to proceed with a prescribed fire is made the day of to ensure that wind and other conditions will not impact adjacent roadways, schools and communities.

- The NFC is a part of the proposed Tree Island Park, which is a place of assembly with both active and passive components.

I have copied Ms. Guerra on this email in the event she would like add or clarify the foregoing summary.

Thank you in advance for your attendance at the hearing and assistance with this matter. Should you have any questions or comments, please do not hesitate to phone me.

Warm regards,  
Melissa

SET BACKS

**Sec. 33-41. - Setbacks—Application of tables.**

The minimum lot area and dimensions of sites and setbacks shown by tables in this article shall apply to the districts indicated.

Front building lines for all structures shall be set back from the nearest highway right-of-way according to sections on official right-of-way plan and minimum widths and tables in this article. The setback from all side and rear property lines shall be not less than ten (10) percent of the average width of the lot, provided such setback is not less than five (5) feet, but in no case shall such setback requirements exceed seven and one-half (7½) feet, except where greater distance is required for a specified district by tables in this article and for corner lots.

*(Ord. No. 57-19 § 30(B); 10-22-57)*

*Cross reference— Definition of setback, § 33-1(96); location of building for public assemblage in EU-M EU-1 and EU-2 Districts, § 33-17(4).*

**Sec. 33-42. - Same—Survey required when property line in doubt.**

Applications for permit to erect, move or alter a structure which is to be located within ten (10) feet of any property line, or which is to be located within twenty-five (25) feet of any existing or proposed highway right-of-way, or where there is any doubt in the minds of the Director and the Director of the Public Works Department about the location of a property line, shall be accompanied by a certified map from a survey of the premises prepared by a land surveyor, registered in the State, and markers showing the boundary corners, corresponding to the survey, shall be left undisturbed until a certificate of occupancy is issued.

## Bond plan includes new schools for Miami-Dade

BY David Smiley  
[dsmiley@MiamiHerald.com](mailto:dsmiley@MiamiHerald.com)

The \$1.2 billion Miami-Dade voters gave their school district when they approved a capital projects referendum in November won't just allow the district to fix up old schools or improve technology. Some of the money will also be spent on new campuses.

New schools are on the way in Northeast Miami-Dade, Doral and the area west of Interstate 75 in Northwest Dade, according to a schedule of work compiled by the district. Chief Facilities Officer Jaime Torrens said the new schools are in response to growing communities or in some cases development that has re-emerged after the real estate collapse. Most of them are slated for the third and fourth years of the bond program.

"It's a small portion of the overall picture," he said of the money slated for new schools.

The list is vague on some locations, but new schools are identified as:

- K-12 at Southwest 149th Avenue and 160th Street
- K-8 at Southwest 167th Avenue and 95th Street
- \* • K-5 at Southwest 149th Avenue and Coral Way \*
- Two K-8 schools and a high school in Northeast Miami-Dade
- K-8 at Northwest 90th Street and 114th Avenue
- K-8 west of Interstate 75 and north of Northwest 138th Street
- High school in Doral.

Other schools listed as new are actually additions, such as work at Glades Middle and South Pointe Elementary. Others are conversions like the project to turn Ethel Koger Beckham Elementary into a K-8 center.

The list also includes expansions, like ongoing work at the MAST Academy on Virginia Key, a project that is half funded by the Village of Key Biscayne.

## Work to start this summer on school bond projects

By David Smiley  
[dsmiley@MiamiHerald.com](mailto:dsmiley@MiamiHerald.com)

Starting this summer, most of Miami-Dade's 300-plus public schools are expected to benefit from brick-and-mortar improvements as the country's fourth-largest school district rolls out a \$1.2 billion plan to fix up aging, neglected campuses.

But with projects slated over a seven-year period, some students, parents and teachers are going to have to wait.

A newly released work schedule that lays out when money will be spent and where shows in specifics what Superintendent Alberto Carvalho and his top administrators began explaining last week: It will be several years before ground breaks on many of the district's largest projects.

In some cases, they will be among the last to start.

"For everybody, their school is the most important one to them. We perfectly understand that," said Chief Facilities Officer Jaime Torrens. "It's just a matter of our ability to do work, and we're not going to have access to all the money at once. We'd just overload everything. We're trying to do the ones that have the greatest need first in the procurement vehicles we have now."

The district has not released specific budgets for the hundreds of projects it plans to undertake, but a five-year capital plan crafted in September put a price on the number of improvements and additions needed at each school. And only two of the two dozen schools identified as having the greatest financial needs will benefit during the first two years of work: Norland Senior High School and Bunche Park Elementary.

Those projects are not to be understated. Norland Senior High, a school that has been waiting for more than five years for a shiny, new campus, is in need of some \$32 million in improvements according to the district's capital plan. Built 55 years ago, classrooms, offices, the auditorium and cafeteria are among the 15 buildings that need to be replaced. Air conditioners need to be fixed. Utilities are scheduled for upgrades.

Construction crews are scheduled to arrive at the school this summer.

"We know that Norland Sr. High School has been neglected for years, and the entire complex faces immediate needs," said Miami-Dade School Board member Wilbert "Tee" Holloway, whose district includes the school. "They will be addressed in the first round, and we're very pleased with that."

However, the remaining 22 schools awaiting large projects, including American High and Miami Northwestern, won't break ground until at least the 2014-15 school year. Southwest Miami Senior High, which needs about \$37 million in work to essentially create an entirely new campus, will see work in three years and then again two years later to finish a project so large it was split into two phases.

Most if not all students currently enrolled at Homestead High, Miami Killian and Skyway Elementary will be gone by the time contractors begin working at those schools in the fifth and sixth years of the district's schedule.

In the meantime, dozens of schools with comparatively few needs will be first in line for improvements.

Torrens explained Wednesday, and also last week during a bond workshop, that most of the hundreds of first- and second-year projects would be smaller jobs valued at under \$2 million because companies already under contract could be tapped to do the work. As the schedule goes on, he said projects would decrease in number and increase in cost.

Torrens said that's largely due to the time it takes to not only bid out and design larger, more expensive projects but also to sell bonds, and a need to space out design and construction in order to avoid flooding the market and inflating costs. He said Norland is an exception because design work had already been commissioned.

Still, district officials and board members hope to quickly show parents and students some kind of improvement after selling the bond initiative to voters in November by displaying some of the woes in the county's older schools, half of which were built 40 years ago or earlier. For schools placed on the back burner, those improvements may come in the form of technological improvements or new playgrounds rather than large-scale renovations.

"Every parent is going to walk into a school in Miami-Dade County come August, and they're going to expect to see a change. That's the reality," said board member Raquel Regalado.

The schedule can still change. Board member Carlos Curbelo, for instance, has suggested that the district consider allowing private businesses to pay for projects upfront and then be reimbursed when bonds are sold in order to speed up construction.

But even Curbelo, who represents southwest Dade, calls the current schedule "practical."

"We need to realize that most people who are supporting and paying into this don't even have children in the school system," he said. "It's not about what's in it for me. It's about what's best for the community."

*This article was updated to more accurately reflect a quote by School Board Member Carlos Curbelo.*

Dear Mr. Osterholt:

This shall constitute our letter of intent on behalf of Ferro Development, LLC (the "Applicant"), in support of its request for a Special Exception to permit a public charter school facility including, **grades pre-kindergarten through the 12<sup>th</sup> grade** (the "Application"). The proposed charter school will **serve up to 3000 students**. The 8.9264 acre Property is **zoned BU-1A (Business District Limited)**. Currently, a charter school facility is a permitted use after public hearing in the BU - 1A zoning district.

The 8.9264 acre Property is designated Business and Office on the Land Use Plan (LUP) map of the Comprehensive Development Master Plan (CDMP). This land use category is generally characterized by **commercial and retail activity**. Schools are permitted in any land use category provided they are approved at a public hearing. Further, the proposed Charter School is consistent with the CDMP and will provide a much needed service to the surrounding community.

In accordance with the plans accompanying this Application, the charter school will consist of 81,600 sq. ft of class room area, 117,150 sq. ft. of non-class room area (offices, bathrooms, kitchens etc.) and 97,000 sq. ft. of outdoor recreation area. The plans fully comply with all applicable land development regulations.

Jack Osterholt  
Miami- Dade County  
October 16, 2012  
Page 2

The proposed facility adheres to the setbacks for buildings of public assemblage and, therefore, is adequately spaced from adjoining properties under different ownership and from the rights-of-way. The property's frontage on S.W. 8th Street and S.W. 152<sup>nd</sup> Avenue provides good access to the site for the intended use. Vehicular ingress and egress to the site has been carefully designed. The parking lot will contain 274 parking spaces. The school drop-off area provides a surplus of vehicular stacking area for 67 vehicles that will primarily serve parents as they drop-off and pick-up their children.

The playground area is adequately spaced from the rights-of-way and will be enclosed with a fence and self-locking gates. Use of the playground area will occur in shifts to ensure that adequate outdoor space is afforded to the number of children allowed outdoors. Perimeter landscaping will be introduced to buffer the adjoining properties under different ownership.

This proposal is compatible with the surrounding area and consistent with the CDMP. We ask that you enthusiastically recommend approval of our request for a Special Exception. If you have any questions or comments, please do not hesitate to contact our office. We look forward to working with your department.

Very truly yours,

Miguel A. Diaz de la Portilla

HO  
CONCERN  
LETTER

Dear Committee Council 10,

We are all homeowners and parents in the area of 147<sup>th</sup> Avenue. We are writing to express our concerns with permitting a Private School and a Daycare in a residential area that is increasingly high in traffic as to be requested on hearing 12- 085. We fear for not only the safety of the children but also the loss of a sense of community, the negative impact this plan will have on property values, and the undeniably heavy traffic that is to come of it. We ask you to please reconsider the location request for this plan to a safer, business oriented, and manageable traffic flow area.

Parents will not feel safe dropping off and picking up their children in a school that has requested so many code exceptions for its structure. Adding to this already concerning fact is the idea of it being built in a residential area, which contains uncontrollable outside forces such as dogs that may escape from a yard into the schools property. Also, many of the homes have pools directly within the vicinity of the proposed property.

We all know that 147<sup>th</sup> Avenue is now being expanded into a four-lane highway to accommodate a beautiful preservation park named "Tree Island Park", which is currently undergoing construction. This will be a great addition to the area for children to play and the homeowners to visit while giving a positive sense of community. A daycare would foil our appreciation for the family community as the flow of traffic from 147<sup>th</sup> Avenue will now be coming directly into our community instead of staying on the highway or west of it as it will without the daycare being implemented.

As homeowners, we purchased our homes in the area because it is quiet, close to shopping and is surrounded by well-rated schools. The real estate market, although not at its best, is still holding up in our area. We would like to do all that is possible to maintain it. Having a daycare and school in the neighborhood is not appealing to us, let alone to future homebuyers. There are dozens of spaces in nearby plazas, which could accommodate the traffic and parking. Also, there are 8 existing schools, not including High School, Middle Schools, or Elementary within a 2-mile radius of the proposed property.

Finally, the traffic, which will be coming into the residential area, will cause frustration among the parents of the potential students as well as the owners of the neighboring homes. The street is not meant to accommodate more than the traffic flow of homeowners and should not be disturbed. With the property being so limited in space, there is only so much that they can devote to parking, this will cause parents to park in common areas and perhaps even in the homes of

**Hearing 12- 085  
November 19, 2012**

**residences which will only lead to more traffic congestion in the already booming streets of 147<sup>th</sup> Avenue.**

**We know that your decision is always in the best interest of the people. We have continued with a list of the schools in the area and the names of just some that share the concern. We hope that this letter can be used as a voice for all of those who have signed and for the homeowners who are not able to attend the meeting. Thank you in advance for your time and we look forward to your support.**

**Respectfully and sincerely,**

**Homeowners**

MIAMI-DADE COUNTY

**BOARD OF COUNTY COMMISSIONERS****JAVIER D. SOUTO, DISTRICT 10**

*"A Public Servant is d  
his/her accessibility, prior  
ethics, fiscal conservati  
support for working.*

**Accomplishments**

- Sponsored the Shannon Melendi Act, which was adopted in 2005. However, in 2008 he re-wrote the Shannon Melendi Act to make it much stronger and more difficult for predators to gain access to children in Miami-Dade County parks. Originally, the Shannon Melendi Act required a State of Florida criminal background check for County employees, coaches and volunteers for youth leagues that use our County parks, as well as persons employed by fairs and carnivals that use Miami-Dade County parks.
- Sponsored law requiring six public hearings for County to impose a new tax or increase an existing tax or fee.
- Law declaring marijuana grow houses as unsafe structure and requiring Building Department inspection and permits to protect the neighborhood and future buyers or tenants.
- Sponsored Legislation mandating that all new and existing commercial establishments, malls, strip malls, pharmacies, grocery stores, gas stations, etc. that are open to the public after sunset illuminate their parking lot with 1 candle foot intensity to protect the public from robberies and reduce the volume of auto thefts in commercial parking lots.
- Sponsored legislation creating a new standardized "No Littering" sign form Miami Dade County, which did not have an official anti-litter sign for roads and public right-of-ways.
- Sponsored the Responsible Property Owner and Merchant Act relating to the maintenance of the exterior of shopping centers, strip malls, restaurants, gas stations, banks and other commercial properties that requires property owners and tenants to maintain the exterior of the building structures, parking lots and public rights-of-ways abutting the commercial property in a safe, sanitary and litter free manner to prevent neighborhood blight and deterioration.
- Sponsored legislation prohibiting adult entertainment establishments near residential neighborhoods, schools and parks.
- Earmark \$250,000 to install guardrails along all canals located next to roadways in his district.
- Drafted the first law in the United States requiring that all cash registers in Miami-Dade County have an LCD screen visible to consumers so they can see their merchandise transactions as they are being charged. Today you see these at supermarkets showing each item and the price charged to the consumer and at drive-through in fast food restaurants.
- Changed laws to protect consumers who received expensive Water and Sewer bills caused by undetected leaks.
- Sponsored laws prohibiting certain businesses with noise generating activities from being established in close proximity to residential neighborhoods.
- Sponsored laws prohibiting noises that disturb the peace.
- Created the Bikes on Buses and Bikes on Metrorail programs.
- Created the Social & Economic Development Council, a think tank of economists and professors to address consequences of downturn in County's economy and reinvigorate its economic growth.
- Initiated illuminated street signs program, so street signs are visible to motorists at night.

# PETITION AGAINST DAYCARE (PETICIÓN CONTRA GUARDERIA INFANTIL)

HEARING NUMBER: 12-085  
 APPLICANT NAME: JULMAR 147 INVESTMENT, LLC  
 THE APPLICANT IS REQUESTING A DISTRICT BOUNDARY CHANGE FROM AU (AGRICULTURAL) TO RU-1MA (MODIFIED SINGLE-FAMILY RESIDENTIAL 5,000 SQ. FT.), A SPECIAL EXCEPTION TO PERMIT A PRIVATE SCHOOL, AND AN UNUSAL USE TO PERMIT A DAYCARE.  
 ADDITIONALLY, THE APPLICANT IS REQUESTING NON-USE VARIANCES TO PERMIT THE SCHOOL TO BE SETBACK LESS THAN REQUIRED FROM PROPERTY LINE(S), AND TO PERMIT PARKING AND DRIVES WITHIN 25' OF AN OFFICIAL RIGHT-OF-WAY WHERE IT IS NOT PERMITTED, ON THIS SITE.
