

Memorandum

Date: September 30, 2013

To: Eric Silva, Assistant Director
Regulatory and Economic Resources Department

From: Paul Mauriello, Assistant Director, Waste Operations
Public Works and Waste Management Department 

Subject: Ferro Development, LLC update (DIC 12_128)

The Public Works and Waste Management Department (PWWM) has no objections to the proposed application as the supplemental information provided in the application does not affect the waste management service provided.

The review was created as requested to update a previous response dated November 9, 2012, as the applicant is requesting a Special Exception to permit a public charter school serving pre-kindergarten through 12th grade. The school will likely be considered a commercial establishment per Chapter 15 of the County Code. As the PWWM does not actively compete for commercial waste collection service at this time, waste collection services may be provided by a private waste hauler. The application will have no impact or any associated costs.

The PWWM does not assess or adjust estimated capacity requirements based on the impacts of individual developments. Instead, the Department maintains sufficient disposal capacity to accommodate five years of waste flows committed to the system through long-term interlocal agreements or contracts with municipalities and private waste haulers and anticipated non-committed waste. The PWWM is in compliance with this standard, meaning that there is adequate disposal capacity to meet projected growth in demand, inclusive of the application reviewed here, which is not anticipated to have a negative impact on disposal service.

If you should have any questions, please do not hesitate to contact Stacey McDuffie of the Fiscal Management and Planning Division at 305-514-6661.
